AI IN WONDERLAND

Artificial Intelligence Lustrum: **Day 1**

The AI programme at the University of Groningen is celebreating its 30th birthday! Join us on the 2nd of November at Martiniplaza for a view into current research at the department, and a look into the future of what the programme may bring. We will be hosting talks and stage discussions, and include current faculty members and alumni. This day is organized by Cover, while the next day will be organized by the university.
